

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are starved nerves. Dr. Pierce's Golden Medical Discovery makes pure, rich blood, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and vigorous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are lasting. The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, but in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper the *Rod of Asclepius*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval of the endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement. The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach, the bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Sassafras, Black Cherrybark, Bloodroot, Man Drake root and chemically pure tripe refined glycerine.

ALASKA TELEGRAPH O. K.

TO EXTEND THE SYSTEM

Receipts for Past Year Exceeded Those of Corresponding Period in 1905, by Nearly 100 Per Cent—Summer Business.

[Publishers' Press.]

Washington, Dec. 7.—The great success of the government telegraph lines in Alaska that it will probably become necessary to extend the duplex working between Seattle and Sitka to the Sitka-Valdez section, in order to take care of the prospective heavy rush of business next summer. Reports reaching the chief signal officer show that in some instances the receipts during the past few months exceeded by 100 per cent, and in many instances 50 per cent, those of a corresponding period last year.

At present this system comprises a 1,700 mile stretch from Seattle to Valdez via Sitka and 1,400 miles of land lines, terminating in a 110-mile wireless jump from St. Michaels to Nome, the extreme point westward. It is probable that congress will be asked to authorize expenditure of the telegraph receipts toward extending the system this year from Fairbanks to Circle City.

The cable ship Burnside is extending a branch from the Juneau-Sitka cable to Wrangell and Ketchikan, an important point in the estimation of the chief signal officer for reporting shipping.

Meat and Dairy Exports.

[Publishers' Press.]

Washington, Dec. 7.—According to a statement issued by the bureau of statistics of the department of commerce and labor, more than \$50,000,000 worth of meat and dairy products will have passed out of the United States into the markets of other parts of the world in the year ending with December. This is made up of a little over \$200,000,000 worth of meats, \$35,000,000 worth of cattle and about \$10,000,000 worth of butter, cheese and milk. No feature of the export trade in agriculture products has shown a more steady and rapid growth than that of meat and dairy products, of which there was an increase of about 60 per cent during the past decade.

HALF WITTED MAN CONFESSES CRIME

Says He Murdered Dora Gilman, but the Authorities Don't Believe It.

HIS REVOLTING STORY

HE HAS A PENCHANT FOR TELLING THRILLING TALES AND THIS IS BELIEVED TO BE AN IMAGINARY ONE.

[Publishers' Press.]

Dayton, O., Dec. 7.—David Curtis, 37, white, confessed to the murder of Dora Gilman. The story was wrung from him by Coroner Walter Kline and detectives. The story as told by Curtis is most revolting in its details. He says he went on the same car the Gilman girl took to go home, and near her home he seized her umbrella and closed it, then clutched her by the throat and assaulted her; that she never made a sound, and that subsequently he carried her body to where it was found.

After the confession was made to the officers Curtis broke down and cried like a child. He was questioned closely as to the truth of his story, and declared positively that he was the murderer and was glad to make a confession to relieve his mind.

Curtis earned a precarious living selling newspapers. He is half-witted and at times labored under delusions that he is a great detective.

Among the newsboys Curtis is known as "Baby Dave." Many of those who know him think his story is purely the result of his own disordered imagination and that he really had no connection with the crime.

The prisoner is the adopted son of James Curtis, a painter living near the soldiers' home, who says the young man is irresponsible. He did not live at Curtis' house, going there about once a week, usually Saturday night. He had the habit, the father says, of telling stories of his achievements to which no attention was paid.

The employers of David Curtis furnish a complete alibi for him. No charge was placed against Curtis by the authorities.

Dora Gilman, 20, was criminally assaulted and strangled to death Tuesday evening, Nov. 20. Her body was discovered by her 16-year-old brother, Collins, the following Thursday morning, lying in a vacant lot nearly opposite the Gilman home on Arlington Heights, a suburb of Dayton. The spot where the body was supposed to have lain during Wednesday was in plain view of passersby and occupants of neighboring houses, and the delayed discovery lent mystery to the affair.

The authorities for awhile were inclined to believe that some members of the family were implicated in the murder and that evidences of criminal assault were framed up to cover their tracks. After complete investigation this theory was abandoned. Many suspects were arrested in this and other cities, but all succeeded in establishing innocence.

The girl bore a fine reputation and the brutality of the crime aroused the greatest feeling. Her fellow employees at the National Cash Register company subscribed \$4,000 as a reward for the capture of the murderer.

WILL SEE THE LEGISLATURE

General Assembly Will be Vigorously Impressed With Right of Teachers' Demands.

The school teachers of Indiana are perfecting an organization to represent them at Indianapolis during the legislature, when they will make a vigorous demand for higher wages. The indications are that they will get in advance, as there seems to be a sentiment favorable to paying them more money for their services. The State Teachers' Association appointed a committee several months ago to look into the salary matter and present a report to the legislature. The committee has held a number of meetings and will be prepared to furnish statistics showing that the teachers comparatively receive less pay than the members of any other profession. Superintendent of Public Instructions Cotton has been leading the movement for better salaries for several years and he believes that it will now be successful.

The Southern Indiana teachers are especially insistent that the wage scale be changed, as they have short terms and less pay than the teachers elsewhere.

Senator Clamor Pelzer of Boonville has asked Lieutenant Governor Miller to put him on the education committee in order that he can and the teachers in this part of the state. He may be selected chairman of the committee. The teachers expect to introduce their salary bill right after the legislature is convened.

4 SQUARE MILES BURNED

Chamber of Commerce Committee on Insurance Settlement Gives Total Area Swept by San Francisco Conflagration.

[Publishers' Press.]

San Francisco, Dec. 7.—The report of a special committee of the Chamber of Commerce on insurance settlements after the earthquake fire, just published, says: "The total area burned was about 2,000 acres, or about 4.7 square miles, containing 520 blocks and about 25,000 buildings, one-half of which were residences. The amount of insurance covering property in the burned district was approximately \$255,000,000 (estimated), written by companies authorized to do business in the state, except \$6,000,000 placed outside the state in about 100 companies. The value of buildings and contents destroyed in the fire must have been about \$350,000,000, being an estimate on the insurance liability, the known ratio of insurance to value (about 70 per cent), and a guess that there was about 5 per cent of property that carried no insurance. An immense sum of insurance money has been paid into this city, a far larger sum than companies ever were called on to pay at one time before. In spite of the earthquake, in spite of the nearness in time of the Baltimore and Toronto conflagrations, the companies will finally have paid in the neighborhood of 80 per cent of the amount of insurance involved. At Chicago 50 per cent was paid, in Baltimore 90."

MARK TWAIN IN LOBBYIST ROLE

Appears in Congress in Behalf of the Copyright Bill Now Pending.

A LONG TERM MEASURE

SENATOR CULLOM WOULD GIVE PRESIDENT AND VICE PRESIDENT SIX YEARS AND A RE-ELECTION.

[Publishers' Press.]

Washington, Dec. 7.—Interest centered about the speaker's gallery Friday during the session of the house and members temporarily forgot the business of the legislation to gaze on the picturesque figure of Mark Twain, who held quite a levee in the gallery, attended by the speaker's secretary. Mr. Clemens came to the capitol in the interest of the copyright bill, and spoke to many members in that behalf. He went before the joint committee on patents in support of the bill.

Representative Southwick of New York introduced a bill to increase the salaries of all civil service employees 10 per cent.

A report made to congress by the governor of Mexico shows that 26,195 voters in that territory favored joint statehood in the recent election, while 14,735 voted against it.

The legislative, judicial and executive appropriation bill, as reported to the house, will contain a positive requirement that the old time orthodox spelling shall be used in all printing authorized by congress.

The Littlefield pilotage bill to remove discrimination against sailing vessels in coasting trade was defeated in the house, 110 to 164.

A term of six years for the president and the vice president of the United States is proposed by Senator Cullom in a joint resolution providing for an amendment to the constitution. The resolution declares also that the president and vice president shall not be eligible for re-election.

Senator Kittredge introduced a resolution directing an investigation by the department of commerce and labor into the lumber trade of the country to ascertain whether there is in existence a trust or agreement among dealers.

The senate confirmed the nomination of Herbert G. Squiers of New York to be minister to Panama, and numerous consular and postoffice appointments.

The resolution of Senator Penrose adopted by the senate, calling on the president for all the facts regarding the discharge of negro troops belonging to the Twenty-fifth infantry, was received at the White House and at once turned over by the president to Secretary Taft, who will furnish the information desired. The Foraker resolution, also adopted by the senate, was sent to the war department, as it asks that the desired information be submitted by Secretary Taft.

There will be nothing old on the vaudeville bill to be presented at the New Phillips next week as Manager Murray has secured a list of entertainers that exclusive of the illustrated songs and motion pictures, have not appeared in this city. James and Cecelia Welch will present a comedy sketch; the Four Hills will be seen in comedy acrobatic work that is said to be of a superior grade; Browning, the dancing marvel, will

A CHEERY HOME

It is the common expression you hear applied to the house that is well supplied with plants during the winter months. They lend an air of comfort to the home and remind one of the balmy days of the warmer months. A fern is especially an attractive plant for indoors during the winter. Practically everyone in Richmond possesses either a Sword fern or a Boston fern, and have enjoyed having them about. Knowing the great popularity of ferns, therefore, the Palladium obtained the exclusive right to offer in connection with the paper three of the Whitmanii ferns to each subscriber. The Whitmanii fern is a variation of the Sword and Boston ferns and completely outshines them in beauty besides being as hardy. The Whitmanii fern is an ideal indoor plant and has only to be seen to be wanted. If the solicitors have not yet visited you let the Palladium office know and a sample Whitmanii fern will be sent to you as quickly as possible, together with the terms under which you may obtain it.
